

Albert Einstein

Educational qualifications:

- PhD in physics, University of Zurich, 1905
- Undergraduate teaching degree in physics and mathematics, Swiss Federal Polytechnic Institute, Zurich, 1901.

Work Experiences:

- Professor of Theoretical Physics, Institute for Advanced Study, Princeton, 1933-1955.
- Director, Kaiser Wilhelm Physical Institution, Berlin, 1914-1933.
- Professor of physics, Swiss Federal Polytechnic Institute, 1912-1913.
- Professor of physics, University of Prague, 1911.
- Associate professor of physics, University of Zurich, 1909-1910.
- Lecturer, University of Bern, 1908.
- Clerk, Swiss Patent Office, Bern, 1902-1908

Achievements:

- Nobel Prize in Physics, 1921.
- Admission to German Order "Pour La Mérite," 1923.
- Copley Medal, Royal Society of London, 1925.
- Gold Medal, Royal Astronomical Society, London, 1925.
- Max-Planck-Medal, German Physical Society, 1929.
- Benjamin Franklin Medal, Franklin Institute, Philadelphia, 1935.

Major works:

- Special Theory of Relativity, 1905.
- General Theory of Relativity, 1916.
- Investigations on Theory of Brownian Movement, 1926.
- About Zionism, 1930.
- Why War? , 1933.
- My Philosophy, 1934.
- The Evolution of Physics, 1938.
- Out of My Later Years, 1950.

Professional memberships:

- President, German Physical Society
- Member, Prussian Academy of Sciences
